

Broward Avian & Exotic Animal Hospital  
611 NW 31<sup>st</sup> Ave  
Pompano Beach, FL 33069

Dear Clients and Patients;

Great news! We will be merging with Coral Springs Animal Hospital next month. We have been planning this merger for over 2 years now. The goal is to continue to provide the high level of care for our avian and exotic patients that you are used to. This merger will allow us to expand our services that will, in the future, include 24 hr care for critical patients, immediate access to specialists such as cardiologists, internists, oncologists and behaviorists and most importantly in-house emergency service. We will most likely start having the in-house emergency service available starting June 1, 2009.

In addition to these services, we will be able to offer greatly expanded services for our fish patients. Dr. Amanda Grant from Illinois will be joining us at the end of June. She has several years experience with pond and aquarium fish - both fresh and salt water. She is very enthusiastic about fish and fish medicine. We look forward to her joining our staff.

We will initially be moving into Coral Springs Animal Hospital's original building the first weekend of May 2009. This is a 2 story "A frame" light gray building on the west side of N. University Drive.

Broward Avian & Exotic Animal Hospital  
1730 N. University Drive  
Coral Springs, FL 33071

Please note: OUR PHONE AND FAX NUMBERS WILL REMAIN THE SAME:

Phone 954-968-7171  
Fax 954-968-8414

We will function with our normal business hours with the exception of Saturdays. We will now be open until 6pm on Saturdays. We will be at this location until the build-out is finished at Coral Springs Animal Hospital's new location. This should take approximately 3-5 months. The reason for the delay is that we are building out a 4,800 sq ft facility on the second floor of their new building that is specifically for the avian and exotic services. This will allow us to continue to serve you and your companions in the manner to which you have become accustomed. You will be able to enter through a door on the north side of the new building to avoid dogs and cats (aka...predators!) in the waiting room and then proceed directly to the second floor via either stairs or elevator.

The new address after the final move will be:  
Broward Avian & Exotic Animal Hospital  
2160 N. University Drive  
Coral Springs, FL 33071

Again, even at our “final destination” our phone and fax numbers will remain the same.

Even though a “two-part” move is more work on our part, we are doing this with you and your pet’s best interests in mind. We want to be able to continue to serve you in a quiet atmosphere where we focus on the special needs of you and your avian and exotic companions.

We are very grateful for your trust in us for the past 10 years and we look forward to many happy, healthy years ahead.

Sincerely,  
Susan Kelleher, DVM
